Content	Each Alphabet Sound Card contains capital and lower-case letters and a picture that shows the sound being produced. The name of the picture on each card contains the target sound at the beginning of the word for the consonants and in the middle for most of the vowels. Vowel letters are printed in red, and consonants are printed in black. The picture associates a sound with an action. This action/sound association is introduced through a short, interactive story found in the teacher's edition.
Student Experiences	Students reference Alphabet Sound Cards to relate sounds of the English language and their letter correspondences. These cards are a resource used by students to remember sound/letter associations for both reading and writing.
Assessment	Continuous assessment provides a variety of useful techniques and opportunities to assess students both informally and formally. Informal assessments include Rubrics, corresponding with specific skill masteries following the Lesson Planner pages within the Teacher Edition. Formal assessments are done periodically to offer teachers the opportunity to gauge progress on multiple skills. In the Program Assessment book, a Pretest at the beginning of the year guides and informs instruction, and a Midyear Test and Post-test give teachers an opportunity to monitor students' progress. Unit Assessments monitor students' understanding of phonics, comprehension, and language arts. Diagnostic Assessment provides more focus assessment opportunities to aid in individualizing instruction. Test Preparation and Practice Workbooks help teachers prepare their students for standardized tests, such as Terra Nova, SAT/9, and ITBS.
Organization	There are 31 Alphabet Sound Cards displayed where all students can see them.
Resource Materials	Little Books are Big Books in a smaller format for individual student use. Teacher Read Alouds are sets of trade books used for theme/unit introduction. Diagnostic Assessment provides focused assessment opportunities to aid in individualizing instruction.
